

More tough.

# LESS LEAKERS

## Cryovac® TBG Series 4000

Our consistently better TBG bag just got even tougher. Introducing new technology, the Series 4000 TBG Bag with improved sealant reduces online and destination leaker rates. Tests have shown reductions in leaker rates of up to 50%. The 4000 TBG bag outperforms the competition from carton-to-case, with fewer leakers in plant and at retail, fewer rejects, and fewer returns, not to mention increased customer satisfaction.

Experience has taught us that one size bag does not fit all applications and each cut requires protection in different places. The new Series 4000 TBG bag is designed to place patch material over bones while still delivering the ultimate seal consistency. Plus, you get coverage only where you need it, and avoid the cost and extra material where you don't. And greater production efficiency means greater savings. So when it comes to consistently better protection, fit and value, the Series 4000 is the toughest bag around.

Square Cut Chuck,  
Neck Off (Opaque Bag)

Short Loin  
(Opaque Bag)

Bone-in  
Lip On Ribeye  
(Clear and Opaque Bag)

## Key Benefits

### A tougher boneguard bag

- New technology developed for beef products offers unique bone protection for everything from shanks, ribeyes and chucks to short loins and ribs.
- Online and destination leaker rates can be reduced up to 50%.
- Improved sealant reduces seal flaws.
- Seals like you'd expect a Cryovac bag to seal.

### Unique bone protection for every processor's need

- Clear patch TBG bag for products that go straight from carton-to-case provide optimal merchandising, performance and protection.
- Opaque patch for subprimals opened in the retail backroom ensures product has bone protection where needed.

Split Backrib  
(Clear Bag)

## The tough keeps getting tougher

Whether it's performance, value or customer satisfaction, the new Series 4000 TBG bag never lets you down. Now even tougher, and with fewer leakers, the Series 4000 bag offers the ultimate in boneguard protection. And the more demanding the distribution is, the more you'll notice the difference. The Series 4000 TBG bag. Consistent toughness. Consistent performance. And consistently unbeatable.
