

CRYOVAC® OFT

The **foam CPET tray** for Skin & Tray Lidding applications
Higher sustainability & convenience
in Ready Meals

IMPROVED SUSTAINABILITY

- **More sustainable pack**
Cryovac® OFT is about 30% lighter than rigid CPET trays
- **Eco-tax savings**
Mono-material, light tray
- Tray suitable for **recycling** alongside PET bottles

INCREASED CONSUMER CONVENIENCE

- **Dual oven ability**
- **Self venting** and **easy opening** features when skin solution is used
- **Easier handling after heating** thanks to cool to touch feature
- **Easy peel** feature with Cryovac® DOF top films
- **Easier disposal.** Tray crushes down to minimize space in the bin

IMPROVED MECHANICAL RESISTANCE

- **Reduced tray brittleness** thanks to foamed structure
- **Reduced tray breakages** and **decreased risk** of foreign bodies contamination

PACKAGING PROCESS FLEXIBILITY

- For **chilled** and **frozen** Ready Meals
- For **lidding** and **skin applications**
- For **off** and **in-line loading**
- For **in the pack pasteurization**
