CRYOVAC[®]

Food Packaging Systems

There's no arguing that the pegboard is deluxe merchandising real estate, but products in shrink bags haven't always been able to enjoy the view. Now Cryovac[®] HangPak[™] solutions bring those products up where they belong. Summer sausage, beef sticks, small cheeses – a wide variety of non-sliced products can now hang with the rest of your products without sacrificing a thing. The HangPak[™] bag offers extra tight shrink with great clarity and abuse properties. Every product will look as good on the pegboard as it does when it leaves the plant. So if you want consumers to get eye-to-eye with your shrink-bagged smoked and processed foods and cheeses, take a closer look at Cryovac HangPak[™] bags.

SHRINK-BAGGED PRODUCTS ARE MOVIN' ON UP.

THE CRYOVAC® HANGPAK™

Benefits

- Highly visible pegboard display vs. laying flat in the case
- Extra tight shrink for snug, smooth package
- Superior clarity – the natural look of the product shows through
- High abuse resistance allows product to get through distribution intact

Technical Info

- Available 2.5 to 6 inches wide and 6.5 to 18 inches long
- Plain or printed (up to 10 colors)
- Runs on Cryovac® rotary chamber vacuum systems

And that's not all.

When you choose a Cryovac® packaging system, you get more than proven and consistent automated loading and packaging equipment. You get more than state-of-the-art packaging materials like case ready and active packaging technologies, Simple Steps® easy meal prep products, and Flavour Mark™ shelf-stable pouches. And more than scientists, engineers, and applications specialists who create solutions that fit your needs, or technical service specialists to help keep you up and running.

No, a Cryovac packaging system is much more than a system. It's a total solution. And it's a committed partner.
